There was no public comment

V. ACTION ITEMS:

A. Office Breakroom, Hallway, and Lobby Renovation

Donkersloot gave a detailed presentation on the office renovation. In our Fiscal Year 2018 Capital Budget, \$40,600 has been budgeted for office renovations, which have been broken down into a number of different projects, including: (1) Office breakroom renovations; (2) Floor replacement in the breakroom, main hallway, bathrooms, and lobby; (3) Carpet replacement in all offices and board meeting room; (4) Painting of entire first floor (excluding breakroom which will be completed in the renovation of the breakroom) and second floor; (5) Epoxy back hallway floor and stairs going up to the board meeting room.

Over the past three months, staff reached out to several vendors regarding the first two projects as they go hand-in-hand with one another and will be easier to complete using just one vendor. The results were as follows:

Advanced Building & Construction, LLC*: Took measurements but informed us they will not be submitting a quote.

Cascade Home Improvement, LLC*: \$15,366.86

D'Agostino Construction, LLC*: Contacted but never showed up

Harmony Construction, LLC: \$16,760.00

Ridgeline*: Contacted but never showed up

Scheid Jonas Builders*: \$45,750.00

*Lowell Chamber Member

Although Cascade Home Improvement's quote is slightly lower than Harmony Construction's, it is staff's recommendations to award the project to Harmony Construction for \$16,760 as they are able to start in February (compared to June for Cascade), have been excellent communicators/very quick to respond, and had excellent references.

The Board consensus was to table this until February's meeting. This will allow staff time to get specific cabinet and tile selections.

B. Performance Services Letter

Donkersloot presented a Letter of Intent (LOI), submitted by Performance Services, Inc. (PSI) to Lowell Light and Power, to finance, install, operate, and maintain a ground mounted solar photovoltaic system (PV System) for up to 3.53 MW.

The purpose of the LOI is to formalize that there is a serious intention by both parties to move forward with the research and potential development of a PV System.

The LOI has been reviewed and approved by LL&P staff and the city attorney. There is no cost or financial risk to enter into this LOI.

It was MOVED BY DICKERMAN, SUPPORTED BY SCHRAUBEN, to approve the Letter of Intent with Performance Service, Inc. to install a solar photovoltaic system.

Yea: 4 Nay: 0 Absent: 0 Motion Carried
